# 1 Introduction

---

FISAF International is a democratic, non-profit, federation dedicated besides sports aerobics and fitness also to Hip Hop and the development of Hip Hop industry, internationally.

The Hip Hop Championship Rules & Regulations and appendices govern all FISAF international Hip Hop Championships.

## 1.1 Hip Hop Unite Official Championships Structure

## 1.2 Implementation

These Rules & Regulations will supersede all Rules & Regulations and will be implemented for the period 1<sup>st</sup> January 2017 to 31<sup>st</sup> December 2018. Possible amendments and changes will be informed via official special bulletins.

## 2 Event Requirements (crew competitions)

---

### 2.1 Structure - Rounds of Competition

All international competitions will have three rounds of competition (when over 10 crews), dependent upon the number of registrations in the competition division:

Preliminary Round	When over 10 crews, will be arranged	Maximum 5 crews/country
Semi-final round	Maximum 20 crews	Maximum 5 crews/country
Final round	Maximum 10 crews	Maximum 5 crews/country

For Mega Crew division the maximum crews/country as follows:

All rounds		Maximum 5 crews/country
------------	--	-------------------------

#### 2.1.1 Preliminaries

- The purpose of this round is to find the 20 highest ranked teams to proceed to the semi final round.
- This round will be used to check compliance with the Rules & Regulations . If the routine doesn't comply, the team will be informed straight after the conclusion of this round and they will be invited to meet the head judge to clarify the problems. Teams can change their competition attire for each performance but should be aware that if the outfit chosen is not acceptable then a reduction in the score/rank will occur. The Head Judge must be notified and approve the change of competition attire. This notification must be done prior to the start of the round and in due time.
- The preliminary round will be used to group the competitors for the semi final round (refer Semifinals).
- If there are 10 or less entries in the competition division, the Head Judge can decide that there will be no preliminary round and the routines will be checked for compliance to the Rules & Regulations in the Semi-final round.

#### 2.1.2 Semi-finals

- The purpose of this round is to find the 10 top ranked teams to proceed to the final round.

#### 2.1.3 Finals

- The purpose of this round is to find the order of the top 10 crews.

## 2.2 Performance Order

### 2.2.1 Preliminary Round

The performance order of the preliminary round is randomly assigned by a drawing of numbers done by the computer system. The number assigned to each crew will be their crew number and the order of performance for the preliminary round.

### 2.2.2 Semi-final Round

Following the preliminary round a semi-final round will take place and the performance order will again be randomly drawn by the computer.

### 2.2.3 Final Round

Following the semi-final round a final round will take place. The performance order of crews will be again randomly drawn by the computer or manually on stage by the finalists.

## 3 Performance Requirements (crew competitions)

- Crews must compete in their Age division, for example a Cadet Crew cannot compete in the Junior Age-Division, a Junior Crew cannot compete in the Adult or Cadet Age-Division.
- Hip Hop Unite, FISAF International and the Event Organizer are not responsible for the individual scheduling of a crew member who is competing in more than one

competition category/division.

- Please consider your personal health and fitness if wishing to enter many times.
- At national competitions, a current driver's license, student ID or passport indicating date of birth are required.
- For international/world competition a copy of a birth certificate or passport are required.

### 3.4 Participation limit

A crew member may not compete in more than one (1) crew per age division per competition.

However, a crew member whose age overlaps 2 categories can join in the 2 different age categories: for example, if a dancer is 12 or 13 years old, he/she can join in 1 cadet team and 1 junior team, and a dancer, who is 17 can join in 1 junior team and 1 adult team.

### 3.5 Performance Attire

Competitors are required to wear appropriate attire for their performance. Any clothing suitable to the culture and many styles of Hip Hop is allowed.

Uniforms/Costumes for all crews should be appropriate for the age of the participants performing the routine. No revealing clothing.

Uniforms/Costumes are accepted if they are appropriate to the routine/story. However, theatrical costumes are NOT accepted (fx dressing up like cartoons, movie roles, etc). This is a dance competition and not a show.

Footwear must be clean - shoes mandatory (no bare feet).

Substances applied to the body or clothing that may affect the clean dry surface of the stage and the safety of fellow competitors is prohibited.

For Cadet & Junior divisions please note that costume materials that suggest sexual, deviate, sadomasochistic or other adult themes are prohibited.

Adult dancers should bear in mind that they are the ones setting the trend for the younger dancers, who look up to them and seek inspiration from them. This is why it is very important to be dressed in good taste.

#### **Facial Painting:**

Expression and facial expression can add a level of authenticity to a performance and elevate it from good to great. "Facial expression is not a costume that you put on. It's a part of you and how you feel."

Facial painting is not recommended and might have a huge negative impact on the attitude / expression, thus affecting the total score/ranking.

### 3.5.1 Unacceptable Performance Attire/Props

The following are considered to be unsatisfactory attire:

- Costume which is too brief and not considered to be appropriately concealing
- Theatrical attire
- Body oil, Body paint
- Excessive body or hair products which may jeopardize the safety of any crew or changes the floor surface
- No props will be accepted. This includes but is not limited to chairs, balls, chains, motor bikes, etc
- Attire must not be removed during the performance, including hats, sunglasses or clothing. However, It is allowed to work with the “attire” (lifting the caps), as long as they are kept on the dancer.

Its not allowed to change the sweater/caps, what so ever between dancers and its not allowed to replace the items, fx place it on the floor.

## 3.6 Performance Area

### 3.6.1 Small Crew

The performance area will be a minimum of 9m x 9m and a maximum of 10m x 10m. Athletes will be notified of the specification of the performance area prior to the commencement of the event.

### 3.6.2 Mega Crew

The performance area will be a minimum of 10m x 10m. Athletes will be notified of the specification of the performance area prior to the commencement of the event.

## 3.7 Staying on stage

### 3.7.1 Small Crew

All dancers must stay on the stage and perform during the whole crew performance.

### 3.7.2 Mega Crew

In Hip Hop Unite it is NOT allowed for dancers in the Mega Crew Division to leave the stage.

Furthermore, all dancers have to dance during the whole routine. Posing is allowed for few counts, but having a rest as others are dancing is NOT allowed. Remember it is a dance competition, so all crew members must dance.

## 3.8 False Start / Interruption

A false start is defined as:

1. A technical problem preventing commencement of a performance after the crew has entered the stage
2. A technical problem preventing continuation of a performance once it has started

A false start/interruption is when the circumstances causing it are not within the crew's control. This would include, but is not limited to, damage to the facility, failure of equipment or foreign objects on the stage.

The decision as to whether the false start/interruption will be acceptable will be at the sole discretion of the Head Judge. If it is deemed to be a false start/interruption then the crew will have the option of performing immediately or at the end of the category.

A routine that is not started or is interrupted, without completion, due to the fault of a dancer or the whole crew, is not considered as a false start/interruption. This would include but is not limited to, forgetting a routine, falling down. If not a false start/interruption, the crew will be disqualified.

## 3.9 Performance Time

### 3.9.1 Small Crew

For a crew to obtain a maximum possible score, their performance must include: One routine of 2 minutes with a grace period of +/- 5 seconds using suitable music.

### 3.9.2 Mega Crew

For a crew to obtain a maximum possible score, their performance must include: One routine of 2.30 minutes with a grace period of +/- 5 seconds using suitable music. There are no compulsory elements.

### 3.9.3 General Info for both Small & Mega Crews

There are no compulsory elements. Competitors should take care to avoid any movement that risks injury to a crew member.

Timing begins with the first audible sound and ends with the last audible sound (this includes a cuing beep if used). The responsibility rests solely with the crew to verify the length of music prior to the competition. Every crew's performance will be timed before or during the preliminary round to ensure that it adheres to the Rules & Regulations.

A tolerance of plus/minus 5 seconds will be accepted outside the performance length. Those crews whose performance music falls outside the period of one minute fifty five seconds to two minutes five seconds (1:55 to 2:05) in Small Crew division and two minutes twenty five to two minutes thirty five seconds (2:25 to 2:35) in Mega Crew division will be penalized by the Judges.

Where a crew wishes to substitute another recording of their performance music, it must first be approved by the head judge and this new recording will be timed during the next round. If this new recording is not according to the time regulation the crew will be penalized by the Judges. The substitution of recording is only possible due to technical issues.

## 3.10 Performance Music

In an effort to streamline the running of the competition and rather than handing your music to us on CD as you enter the competition, we'd like you to send your music upon registration of your team, and we'll have it tested and ready to go on the day.

The format must be MP3.

There are many methods to get the file in the right format. The simplest method is to extract a file from the CD into MP3 format.

### 3.10.1 Backup Music

Crews are required to BRING AT LEAST ONE (1) CD WITH YOUR MUSIC TO THE EVENT - JUST IN CASE THERE ARE PROBLEMS WITH THE UPLOADED MP3-TRACK.

The backup-CD should be labeled, being clearly identified with the following:

Category and division, Name of Crew, Country.

When using the backup-CD, there must be only one track with the competition music on it. All music will be retained by the event organizer until the end of the event. Music is allowed only on CD.

In the case where the Head Judge or a crew requests submission of another recording of music, approval must be given by the Head judge to do so. The new recording will be retimed before the next round, to verify that it complies with the Rules & Regulations and when done, it must be authorized for use by the Head Judge.

### 3.10.2 Floor Testing

The event organizer will provide a schedule for floor and music testing for all categories in the event timetable prior to the preliminary round. We recommend min. 1 min. for each crew, if possible.

## 3.11 Music Language

Music which contains language, which is deemed not appropriate and/or offensive, by the Head Judge in consultation with the judging panel, will not be acceptable. Crews will have the opportunity of replacing their performance music following the Preliminary round if necessary.

The Judge Panel are now being more strict with the cadet/junior divisions concerning Music Language. Cadets/Juniors cannot be using music language as the Adult division, and be notified that sexual language and routine that is not considered appropriate for cadet/junior dancers will be punished.

Keep in mind that while you may find certain language appropriate, it may be considered offensive to others. If unsure, please contact the chair of HHU Technical Committee (a lot of songs/tracks have a clean version).

Music and songs belonging to a trade mark can't be used as competition music.

## 3.12 Judging Panel

The judging panel will consist of five scoring judges plus a Head Judge. There will be at least two specialist Hip Hop judges, if possible, and the remainders will be Hip Hop Unite trained/certified judges, all with extensive dance backgrounds in more than one dance genre.

Each judge will apply a global score out of 10 to give a ranking for each crew. A lead judge will be appointed and their ranking will decide any tied situation.

### 3.12.1 Head Judge

The Head Judge will oversee the judging panel and is the highest technical authority at a Hip Hop Unite International Competition. The Head Judge is responsible for ensuring consistent and fair application of the Rules & Regulations by the judging panel and overseeing the correct implementation of the judging systems and the tabulation of results. Only if an exceptional situation arises the Head Judge may be a ranking Head Judge.

### 3.12.2 Hip Hop Judge

The Hip Hop Judge will consider the choreography and styles shown and the way they are interpreted and expressed with the music, performed and presented. The Hip Hop Judge also considers the technical ability of the crew and their ability to look and move together as a crew.

The Hip Hop Judge will apply a score for each crew, after considering the Hip Hop criteria and in comparison to all other crews. The ranking of a crew will be derived from a score out of 10.

## 3.13 Ranking

The goal of the ranking system is to determine the winner by the majority of placing given by the judging panel, rather than an addition of scores.

For example:

- Crew A: 3 judges have 1st / 2 judges have 2<sup>nd</sup>
- Crew B: 2 judges have 1st / 3 judges have 2<sup>nd</sup>

Crew A is the winner

The tabulation system will find the crew with the most first places then the most second and third etc, to determine the final ranking.

### 3.13.1 Application of Scores and Ranks

Each scoring judge will consider their specific criteria to determine a score out of ten (10) points representing a crew's performance. From this score a crew's rank for each judge is derived.

The ranks applied by all judges for each crew, will determine the placing of the crews for the competition. The crew with the best ranking will be determined the winner.

Please note that scoring/ranking a crew is all about comparison between the crews.

### 3.14 Notification

After preliminary round, the scores and ranking of the crews that will not be qualified for the semi-final will be displayed and/or announced.

After semi-final round, the scores and ranking of the crews that will not be qualified for the final round will be displayed and/or announced.

In the finals the announcement of the final ranking will be done in the prize giving ceremony.

After the final round all scores and ranking of all crews will be displayed.

### 3.15 Tied Ranking

Where two or more crews have exactly the same ranking in a competition round, the positioning will be decided by the ranking from the lead Hip Hop Judge.

## 4 Hip Hop Criteria (crew competitions)

---

All movement must be appropriate to and reflective of the various Hip Hop styles and 'moves'.

There is no one definition to describe Hip Hop dance. Hip Hop dance refers to street dance styles primarily performed to Hip Hop music or that have evolved as part of hip-hop culture.

It includes a wide range of styles primarily breaking, locking, and popping which were created in the 1970s. Hip Hop dance is a fusion of street dance disciplines and cultural interpretations from around the world. A Hip Hop dance routine incorporates the look, music, attitude, posture and street dance style to make it uniquely hip-hop. The most real routines showcase a variety of Hip Hop dance styles, signature moves and choreography conveying the character and energy of the street.

The Choreography should display different styles with respect to all of the following criteria:

- **Technique and complexity**
- **Music Expression and Interpretation**
- **Variety and Creativity**
- **Formations and Visual Image**
- **Team Performance and Presentation**

Please keep in mind that the choreography should relate to the criteria and that each criteria is as important as the other. 'Choreography is only as good as its technique, expression and performance'

A description of Hip Hop Culture, the Foundation of Hip Hop and Hip Hop styles can be found on Hip Hop Unite website: [www.hiphopunite.com](http://www.hiphopunite.com).

#### 4.1 **Technique and Complexity**

- High level of technical ability and quality in all hip hop styles and movements
- Precise, purposeful placement and control of all movements and body parts
- Ease of movement
- Each style should be executed correctly with a high level of technique and in the original manner that the style was intended. It is advised to avoid styles that cannot be executed well by all crew members
- Using many parts of the body and many muscles together at one time
- High level of neuromuscular co-ordination
- Use of complex/difficult moves and styles specific to the various hip hop styles
- Ensuring movements and styles chosen are safe and executed well so as not to risk injury to any crew member

#### 4.2 **Music Expression and Interpretation**

- Ability to express the music with the dance and styles chosen
- Expression of the culture of hip hop
- Use of music appropriate to the various hip hop styles
- Music and movements should be inseparable
- Good musical timing
- Use of the natural music structure and phrasing such as highs, lows, rhythms, counter tempos, and lyrics/text

#### 4.3 **Variety and Creativity**

- Creative, unpredictable movements using the entire body
- Use of a variety of different hip hop styles and moves
- Unpredictable original transitions when changing positions of crew members to create formations and a visual image
- Transitions from one style to another should be creative and flow as part of the choreography
- Unpredictable and creative changes in the vertical levels
- Variety in the use of the whole body

#### 4.4 Formations and Visual Image

- Use of the entire crew to create a visual image
- Use of orientations and floor space
- The visual effect of a crew when creating formations and using the vertical levels
- Tricks should be choreographed and not set up or recovered from
- Tricks should not be used to show off but have a purpose in building the choreography

#### 4.5 Team Performance and Presentation

- Same execution level of crew members: All members should perform movements with the same precision
- Display of an over-all high standard in delivery of the entire choreography
- Dynamic energy and intensity throughout performance (selling the choreography)
- Ability to generate excitement, enthusiasm and the mood in relation to the culture of hip hop
- Interactive choreography with crew members
- Staying in time with each other
- Solo performances are discouraged, crew choreography is required
- Attire and appearance suitable to the hip hop/street culture

## 5 Unacceptable moves (crew competitions)

---

Any movement that risks injury to a crew member.

**Important:**

All moves and especially 'tricks', should be executed perfectly, without any danger/risk of injury to any crew member. If in doubt of acceptance, consult the Head Judge prior to commencement of the preliminary round.

## 6 Disqualification (crew competitions)

---

### 6.1 Disqualification Procedure

In order to disqualify a crew a Head Judge must comply with the following procedure. Disqualification only applies to those circumstances as specified in the Rules & Regulations.

#### 6.1.1 Preliminary Round

The Head Judge gives a written warning to a crew that they are in breach of the Rules & Regulations or Code of Conduct and in pursuing this breach may lead to disqualification. This written warning must be signed by the Head Judge, the original given to the crew and a copy kept for the competition records.

#### 6.1.2 Semi-final Round

Where a crew, previously warned by the Head Judge, continues to breach the Rules & Regulations or Code of Conduct, the Head Judge is authorized to disqualify a crew from a competition.

Where a crew is disqualified, the Head Judge will give a written notice to the tabulator to remove a crew's results. The Head Judge will then notify the crew of their disqualification.

### 6.2 Protests

Where extraordinary circumstances occur a protest must be lodged, to the Head Judge, within 1 hour of the closure of the current category. Protests will be considered by any Technical Committee members present and Head Judge with the decision of this group being final.

## 7 Notification about Criteria (crew competitions)

---

### 7.1 Props

Props are not allowed (i.e. canes, chairs, tambourines, musical instruments, helmets).

Attire/Costume may include accessories such as hats, caps, gloves, glasses, etc. Removing pieces of clothing during the performance is not permitted. It is allowed to work with the “attire” (lifting the caps), as long as they are kept on the dancer.

However, its not allowed to change the sweater/caps, what so ever between dancers and its not allowed to replace the items, fx place it on the floor.

### 7.2 Music Effects

Sounds effects and original compositions are permitted. Crews are highly cautioned and advised against the music becoming too complex with too many edits, sound effects preventing them from exhibiting a clean and continuous Hip Hop dance performance.

### 7.3 Tricks

Tricks are allowed in the routine. However, judges are looking for correct technique, confidence, and performance quality. Tricks are ok, if they are part of the routine. However, its not about multiple turns or tricks. Judges want to see a well rehearsed, polished routine.

The more technically strong a dancer is the better the dance will be. The tricks are nice and do have a place in their dance, however, judges always look for clean dance transitions into a trick, the preparation of tricks, good dance combinations that will make up the body of the dance being performed and if tricks have a “purpose” in choreography and in connection with music interpretation.

### 7.4 Solo Performance

Solo performances are discouraged, crew choreography is required.

Hip Hop crew performance is about collective skills. In short, each member should be able to perform dance moves in precise harmony and sync with other group members. This team unity is important in crew performances.

However, a dancer or dancers are allowed to perform certain styles, jumps, splits, flips, and other moves by themselves. This should be short consequences and connected with the team routine. If the same dancer(s) is performing all the tricks, special moves or special styles, this might also be considered as solo performance. However, despite the length of the solo performance, the score/ranking is always based on comparison of the crews.

## 7.5 Styles

In Hip Hop Unite there are no limitations, or minimum/maximum number of styles that must be performed in the routine to receive Variety points. However, a crew should avoid excessive use of the same moves or patterns.

## 8 Hip Hop Unite Battle

---

Hip Hop Unite Battle is a 1 vs 1 battle and is open to all dancers, male and female. For the moment we are offering 1 vs 1 Hip hop battle (13+) and Youth Battle Hip Hop 1vs1 (7-12 years).

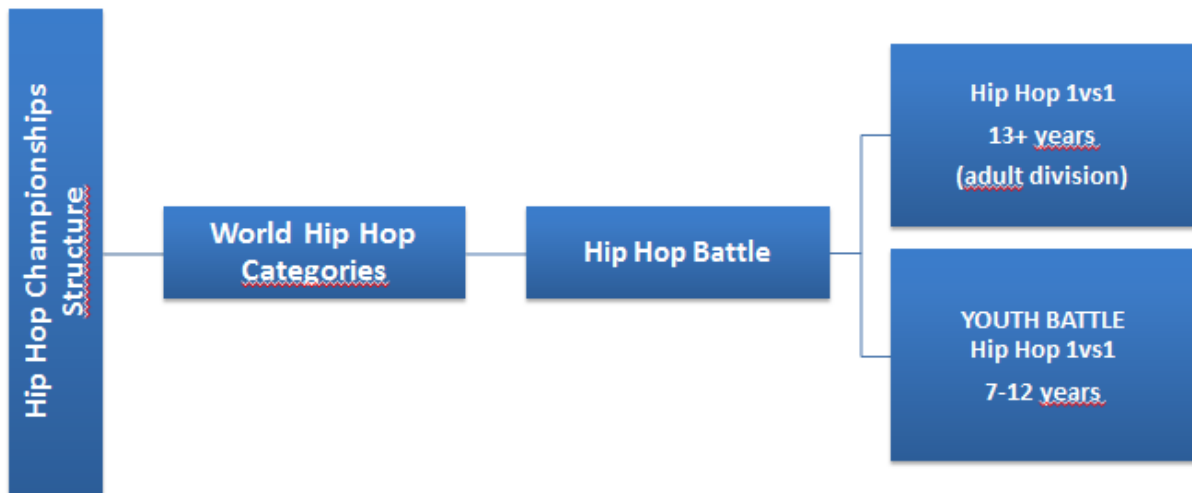

Our Hip Hop culture, has provided a lot of battles in its history.

Some battles have become famous; some have become infamous; and then there are the ones which are legendary. Legendary battles such as The Rock Steady Crew vs. The Dynamic Rockers; The New York City Breakers vs. The Rock Steady Crew; Kool Moe Dee vs. Busy Bee; The Fantastic Romantic Five MCs vs. The Cold Crush Brothers; KRS One vs. MC Shan; LL Cool J vs. Kool Moe Dee... and Cap vs. all five boroughs of New York City's Graff writers.

Battle is the key nutrient for Hip Hop culture. And the ingredients in a Hip-Hop battle are originality, creativity, skill, execution, passion, enjoyment, and style.

### 8.1 Competition System Battle

Below is a diagram which explains the Hip Hop Unite Battle competition structure.

## 8.2 Implementation (Battle)

These Technical Regulations will supersede all Technical Regulations and will be implemented for the period 1<sup>st</sup> of January 2015 to 31<sup>st</sup> of December 2016. Possible amendments and changes will be informed via official special bulletins.

## 8.3 Championship Resources (Battle)

The Battle Technical Regulations together with the Hip Hop Unite Event Policy contain all information which governs policies, rules of competition and procedures for Hip Hop Unite international competition.

## 8.4 Performance Requirements (Battle)

### 8.4.1 1 vs 1 battle

1 battle where each dancer will be challenged to dance to the unpredictable, varied beats of a live DJ.

### 8.4.2 Music

The music genre will change for each dancer and can range from any genre of music such as rap, pop, break beats, funk, electronica, house music, etc...

As Hip Hop Unite is only arranging 1vs1 Hip Hop Battle the music genre will off course be appropriate to Hip Hop.

### 8.4.3 Round of Dance

- Each round will consist of 2 solo dancers who will battle one another facing each other.
- During the preliminary rounds, the DJ will play one song for each of the 2 dancers.
- Each dancer in the preliminary rounds will have the opportunity to dance for approx. 45 sec. - There are 2 rounds for the preliminary.
- Judges will choose 1 dancer from each round to advance to the next round until the battle progresses to 2 final dancers.
- The final 2 dancers might have 2 or 3 songs each to impress the judges (depending on the no. of dancers in the competition).

Please note, If there are more than 40 participants in the Hip Hop battle 1vs1 at Hip Hop Unite European or Hip Hop Unite World Championships, the Chair of Hip Hop Unite can require the contestants to showcase a dance performance in order to preselect.

At national championships the decision lies at the head judge.

- A preselect round is a showcase:  
DJ will play the music for around 30 sec, so each dancer is able to absorb the music/beat - Hereby each dancer will do their showcase one by one.

Judges will then select 32 dancers to battle for the championship.

Please note: The round of dance, the timing, the number of participants, the pre-selection, etc. might be subject to change if the head judge find this necessary due to certain circumstances (eg. Time table).

#### 8.4.4 Judges

The decision as to whether the false start/interruption will be acceptable will be at the sole discretion of the Head Judge. If it is deemed to be a false start/interruption then the duo will have the option of performing immediately or at the end of the category.

A routine that is not started or is interrupted, without completion, due to the fault of a dancer, is not considered as a false start/interruption. This would include but is not limited to, forgetting a routine, falling down. If not a false start/interruption, the duo will be disqualified.

### 9.3.7 Performance Time

Performance Time is 1.15-1.30 minutes for a duo. Timing begins with the first audible sound and ends with the last audible sound (this includes a cuing beep if used).

Props are not allowed (i.e. canes, chairs, tambourines, musical instruments, helmets).

Sounds effects and original compositions are permitted. Duo’s are highly cautioned and advised against the music becoming too complex with too many edits, sound effects preventing them from exhibiting a clean and continuous Hip Hop dance performance.

### 9.7.3 Tricks

Tricks are allowed in the routine. However, judges are looking for correct technique, confidence, and performance quality. Tricks are ok, if they are part of the routine. However, it’s not about multiple turns or tricks. Judges want to see a well rehearsed, polished routine.

The more technically strong a dancer is the better the dance will be. The tricks are nice and do have a place in their dance, however, judges always look for clean dance transitions into a trick, the preparation of tricks, good dance combinations that will make up the body of the dance being performed and if tricks have a “purpose” in choreography and in connection with music interpretation.

### 9.7.4 Solo Performance

Solo performances are discouraged, duo choreography is required.

Hip Hop duo performance is about collective skills. In short, each member should be able to perform dance moves in precise harmony and sync with his/her dance partner. This unity is important in duo performances.

However, a dancer or dancers are allowed to perform certain styles, jumps, splits, flips, and other moves by themselves. This should be short consequences and connected with the routine. If the same dancer(s) is performing all the tricks, special moves or special styles, this might also be considered as solo performance. However, despite the length of the solo performance, the score/ranking is always based on comparison of the duo’s.

### 9.7.5 Styles

In Hip Hop Unite there are no limitations, or minimum/maximum number of styles that must be performed in the routine to receive Variety points. However, a duo should avoid excessive use of the same moves or patterns.
